

Concordia Governance Certificate

Concordia DAO Council is the Casper governance firewall for AI-run DAOs: Dissent Receipts preserve Verity's objection, Locke is bound to the exact approved hash, and browser-wallet quorum is proven on-chain when execution is reverted before quorum and accepted after quorum.

PROPOSAL DAO-PROP-6CB25C	DECISION APPROVED_WITH_LIMITS
CANONICAL RECEIPT e926582f3dacd05d9bd59a4fe0ae3c3c884ad57f23ab7318925cef34c286d852	CANONICAL CONTRACT hash-a8640466af8c72fdbcb8d9bb85bf445903ce5969fd9a7e7cb08179ffd5caa42f1

Certificate Scope

This certificate covers the canonical reviewer proof run. Supplemental wallet, quorum, dynamic, x402, and IPFS proofs are linked above. Historical or superseded receipts are not the canonical reviewer receipt.
